Clever Cas and Her Confounding Compatriots

Andrew Bolles

Grace Lawlor

I'm not really the storytelling type, but there is a tale I can share...

It's unconventional, yes...

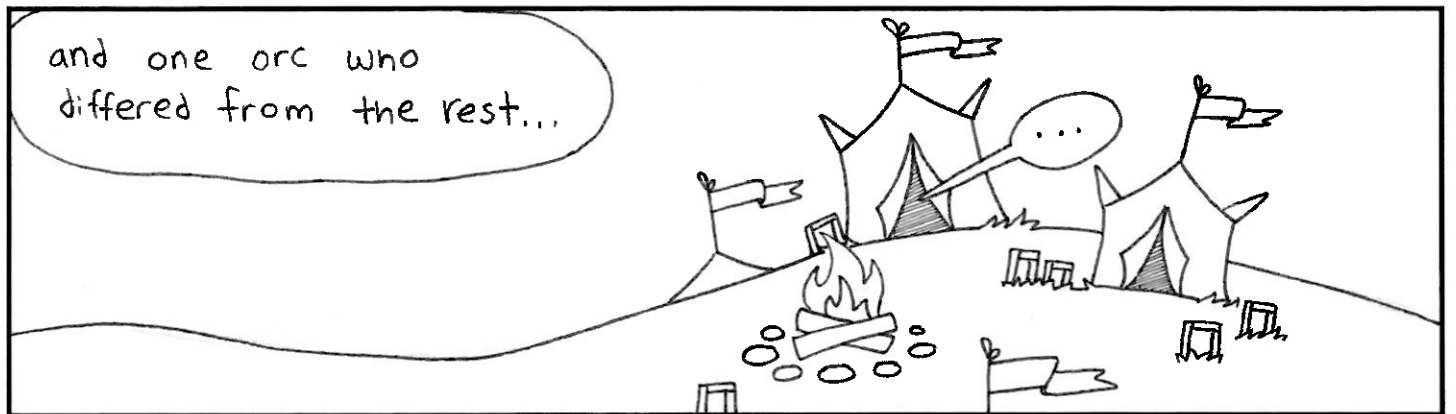

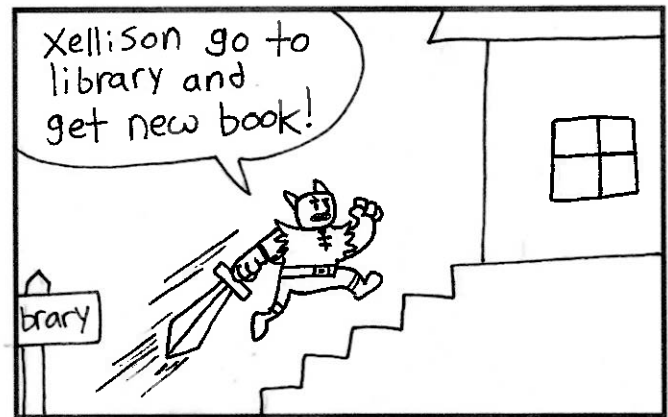

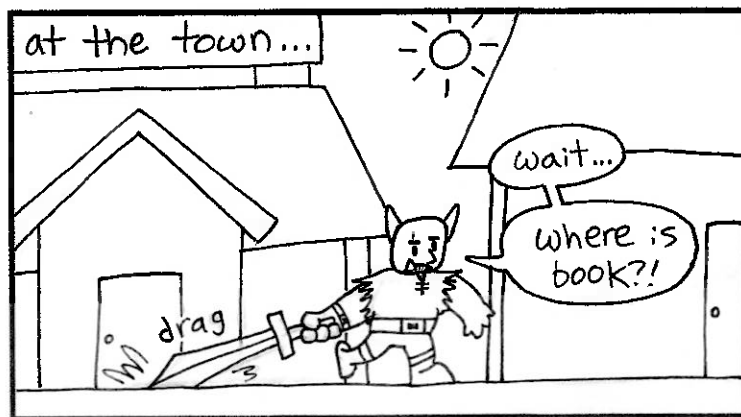

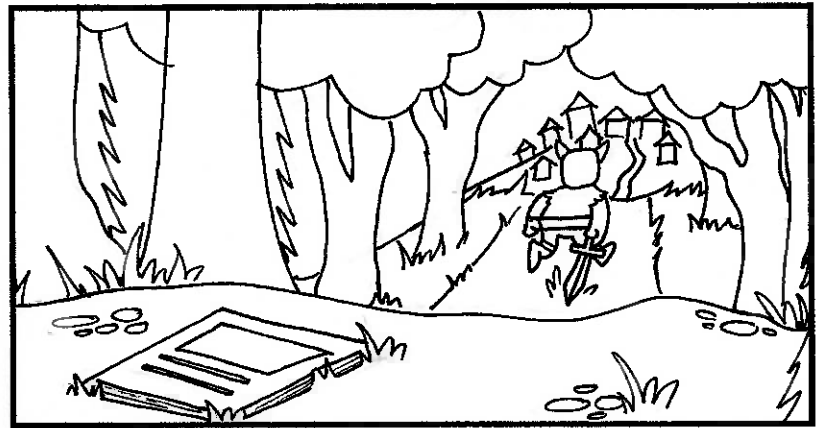

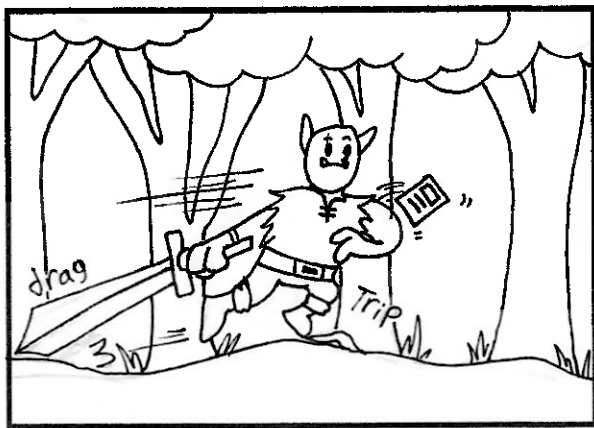

but entertaining none the less.

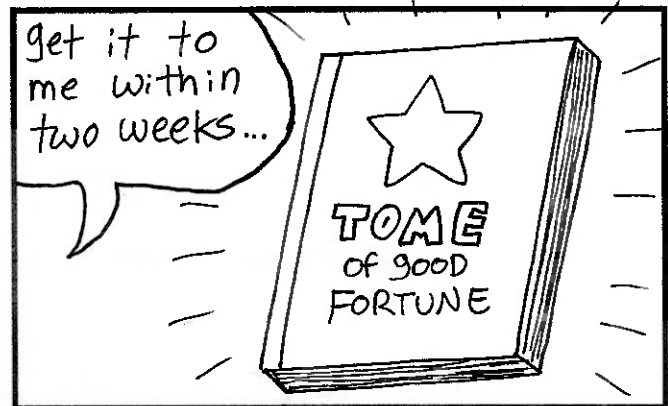

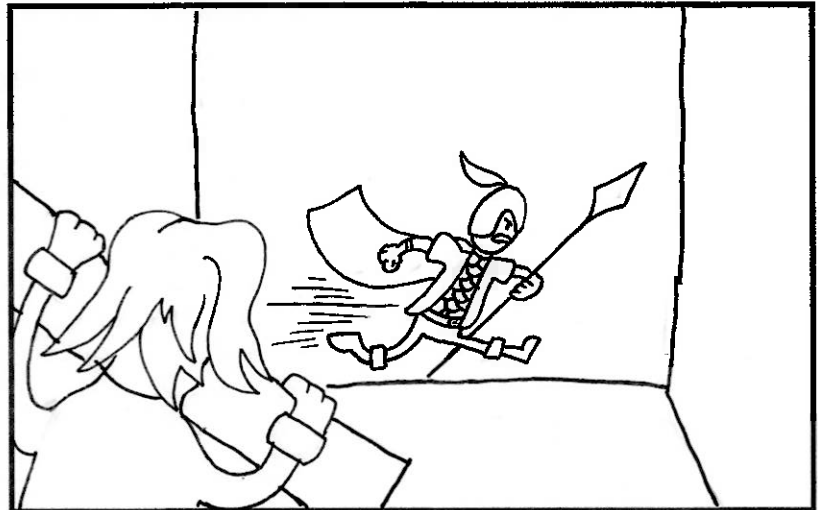

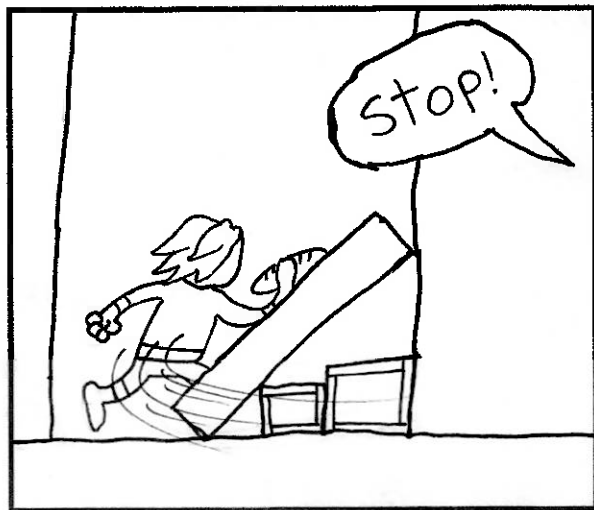

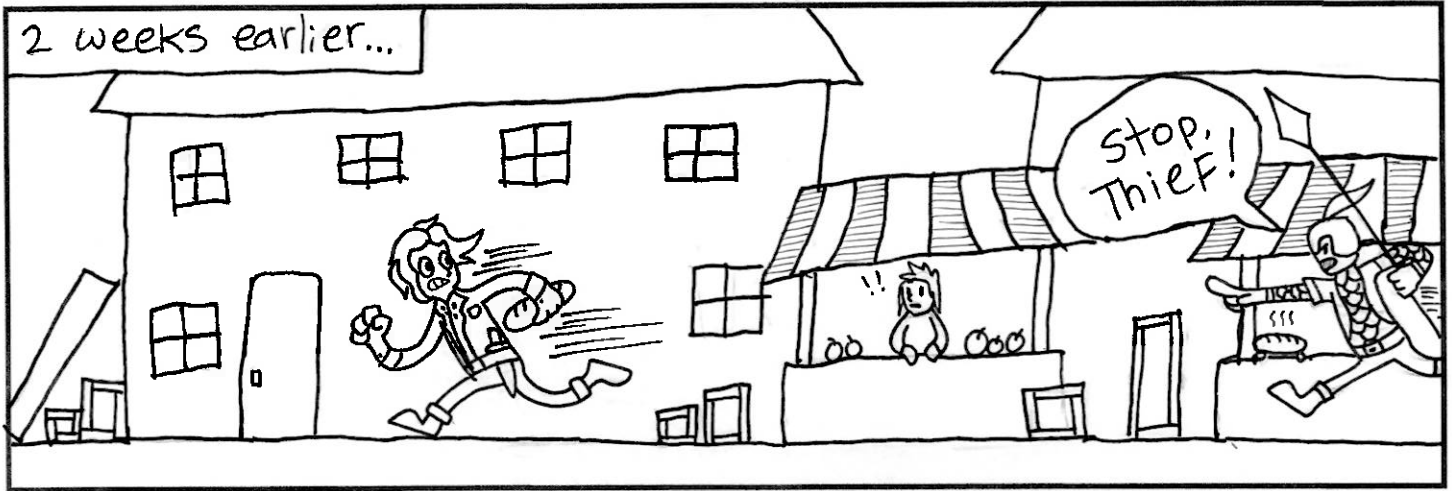

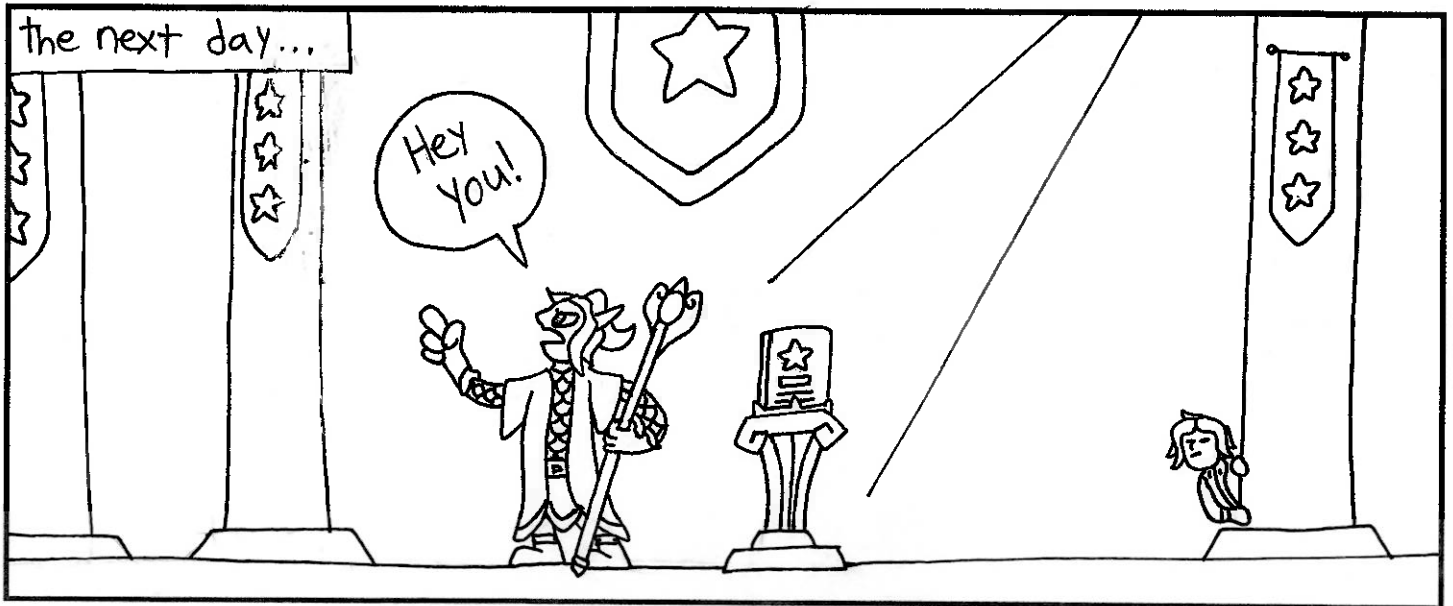

this is the tale of how I began a life of adventure with two idiots...

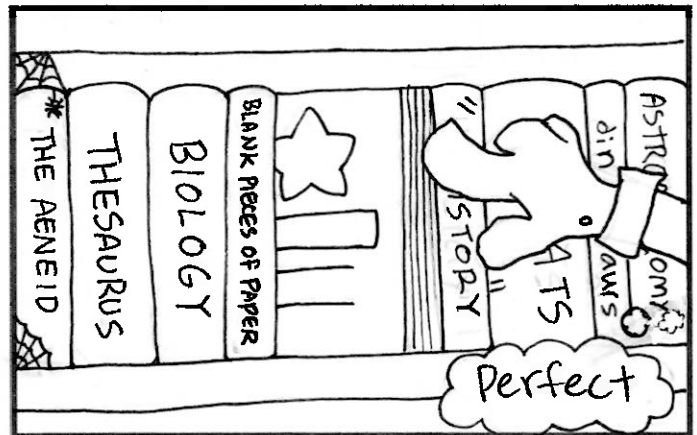

...I honestly only stayed because they provided food

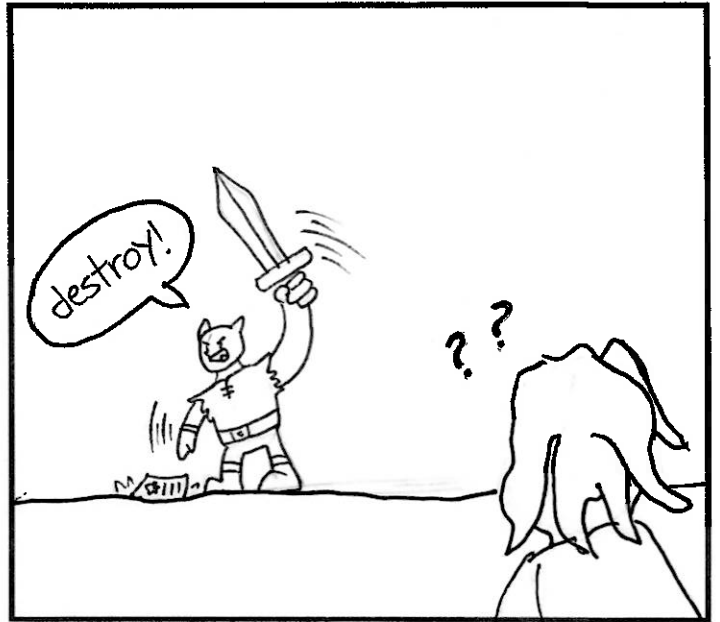

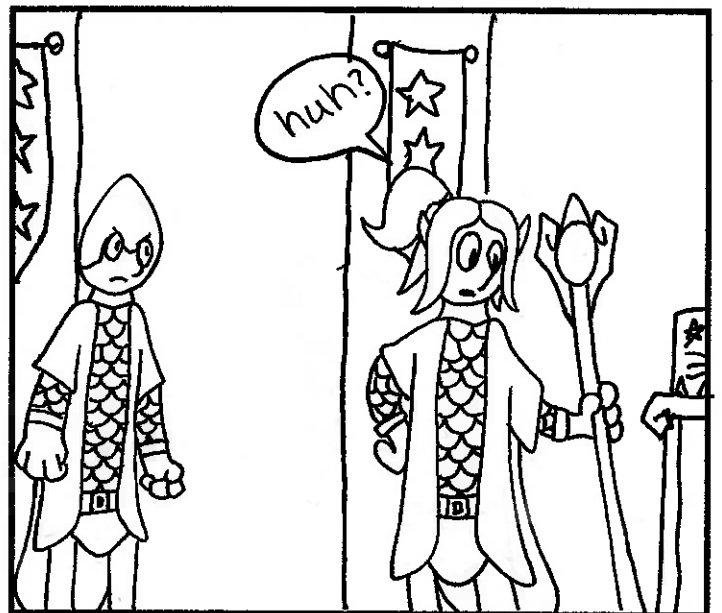

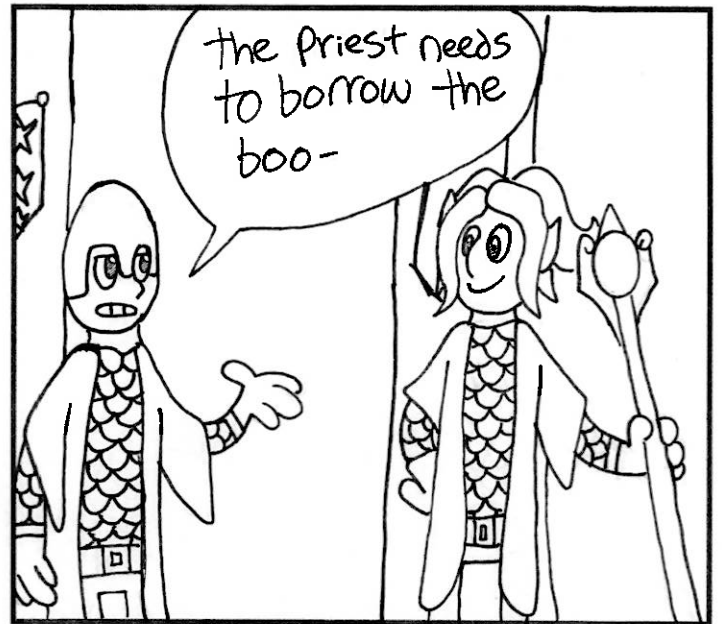

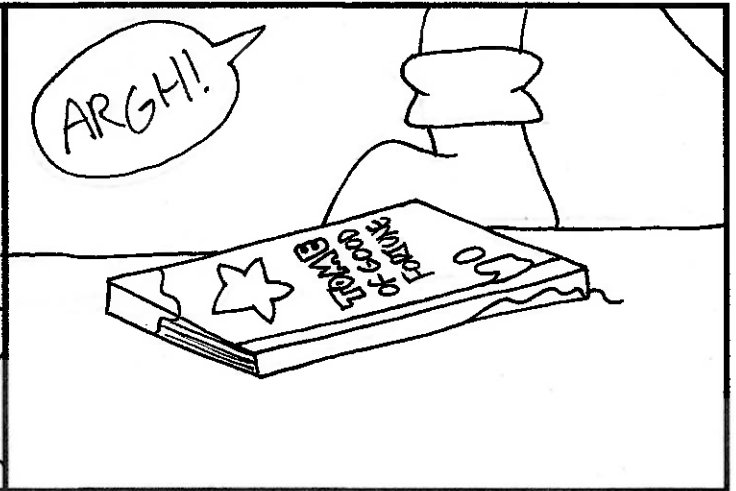

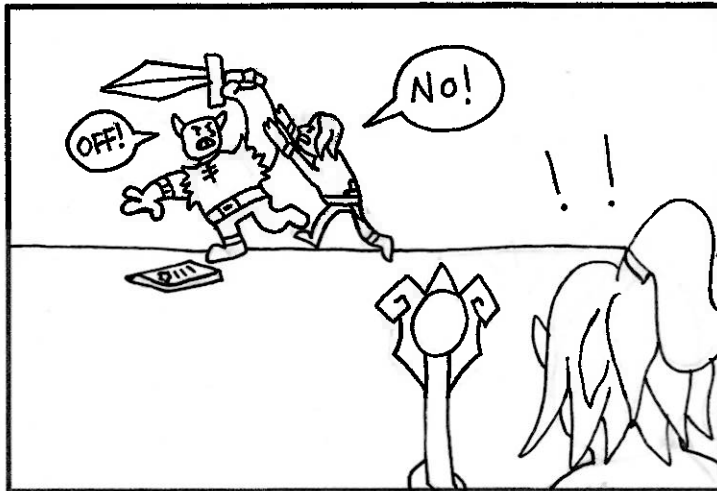

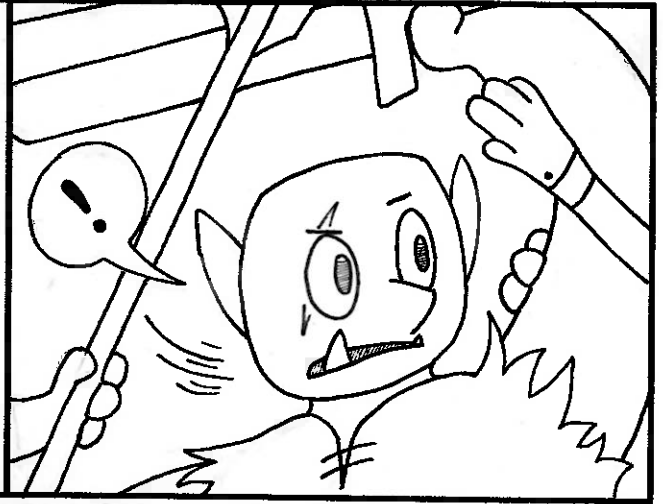

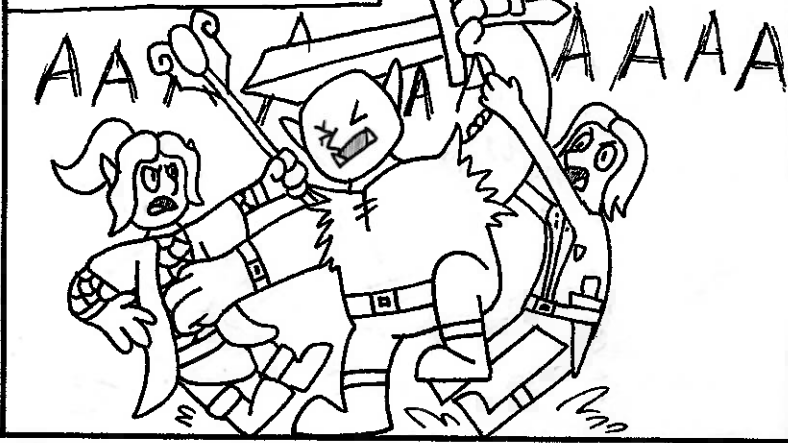

Seconds later...

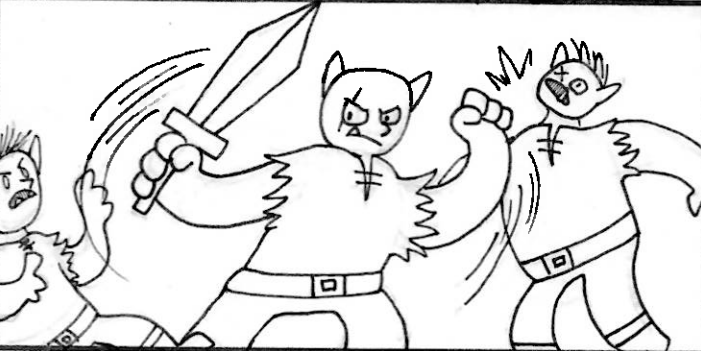

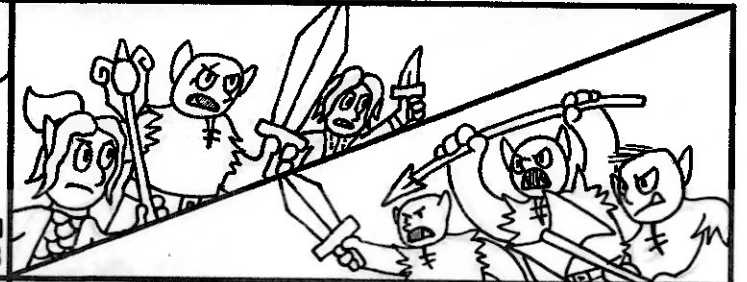

Tribe come to take book back!

We can't let them have it!

We might as well work together.

The orcs retreated - victory was ours.
